

Learner Activity Sheet:

Mobile Basics — iOS

ACTIVITY #1: External Buttons and Touch Gestures

1. Locate the button to turn on your phone. Turn your phone on.
2. Locate the buttons to turn your phone's volume up and down. Turn the volume all the way down, then halfway up.
3. What do you do if you don't want your phone to ring? Use the button to silence your phone.
4. How do you see all of your apps? _____
5. How do you scroll through a website? _____

ACTIVITY #2: Common Apps

What app do you use to:

1. Send an email? _____
2. Search the web? _____
3. Send a text? _____
4. Record a video? _____
5. Make a phone call? _____

How do you get back to the Home Screen when you have an app open?

Open the camera app and take a picture. Show the instructor the image you took.

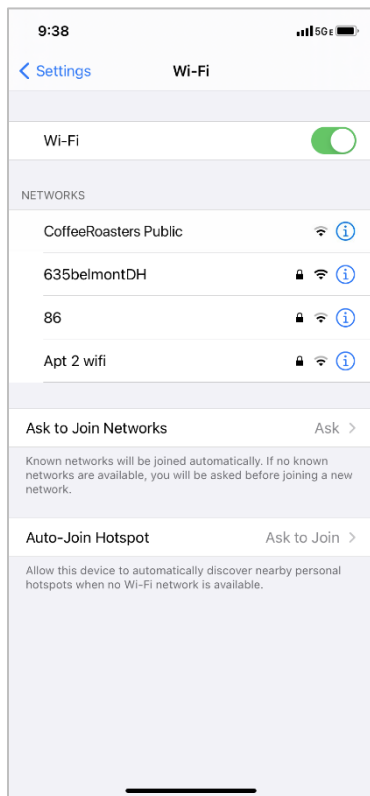

Open the browser and search for the PLA Digital Learn website at <https://www.digitallearn.org/>. Scroll to the link Using a Mobile Device. Tap the link, and then show the instructor your screen.

ACTIVITY #3: Getting Connected

Navigate to the available Wi-Fi-Networks screen on your device. Write down what steps you took to get there.

Write down one of the networks that is secure (if applicable).

Write down one that is public (if applicable).

You're relaxing in a coffee shop. You want to connect to Wi-Fi and do some personal tasks on your smartphone. On your phone, you see this list of Wi-Fi networks. Which would you connect to? Why or why not?

You want to do some online banking at the coffee shop. Is this a good idea on the Wi-Fi network you're on? Why or why not?

ACTIVITY #4: Safety and Security

Which of these apps seems more trusted? How do you know?

Amazing task app! 2y ago

★★★★★ MichaelaDR

Before downloading TickTick, I really struggled finding a task app with all the features I wanted. Things like due dates, reminders prior to due dates, calendar view, etc. I was totally excited to download TickTick and see that they have all of those capabilities and more! I group up each [more](#)
